FROM the New World

# COLUMBIAN EXCHANGE The exchange of items and ideas between the two worlds

For each of the following ideas, items or words listed below, identify the *direction of the exchange* that took place. For example, did the idea for moveable print and the *technology* of the printing press come <u>from</u> the *Old World* to the *New World*? Or did this idea and item come <u>from</u> the *New World* to the Old?

| idea / item / word | FROM the Old World |
|--------------------|--------------------|
| horses             |                    |
| smallpox           |                    |
| bananas            |                    |
| sugarcane          |                    |
| tobacco            |                    |
| corn (maize)       |                    |
| "Nevada"           |                    |
| chili peppers      |                    |
| African Slaves     |                    |
| cattle             |                    |
| measles            |                    |
| chickens           |                    |
| "Mississippi"      |                    |
|                    |                    |

## FROM the New World

idea / item / word

## FROM the Old World

potato
